Subject: Southeast Chapter of Texas AWWA June 2009 eBlast

Hello David,

Welcome to the Southeast Chapter of Texas AWWA eBlast - an e-newsletter of upcoming events, articles, jobs and more from our chapter.

After a successful seminar event earlier this year in February and co-hosting of Texas Water 2009 Conference in April, we are excited to invite you to our luncheon meeting this month at Hess Club on **June 25th, 2009**. The featured speaker of our June program is **Mr. J.R. Reavis, Director of Water Quality at South West Water Company**. His presentation will discuss general difference between groundwater and surface water and as it relates to surface water conversion and what needs to be considered when converting a system from groundwater supply to surface water supply. This would provide valuable information to public water systems who are converting their system from groundwater to surface water, and help them to better understand about what changes to expect during the surface water conversion. Please click link below under calendar events for registration information and other details.

Our scholarship committee invites college students to submit their application for TAWWA scholarship during the open application period between April 20th and July 10th, 2009. The application is located on the TAWWA website for scholarships. For more information, please contact our Scholarship Chair, Camille Sowell at scholarship@setawwa.org.

All members are requested to check our website (www.setawwa.org) regularly for chapter committee reports and upcoming event details. Our website is updated regularly to keep our members up-to-date with latest information. Members are requested to join one of the committees to assist in future developments and events of our chapter. To do this, please visit our Executive and Standing Committee website and send an email to the appropriate committee chair of your interest.

As a reminder, we request all our members to maintain their current email address with National AWWA website: [change address / member information](#). Members will need their AWWA login information to make any changes. Please note that the e-mail address for each SE TAWWA Chapter member comes from national AWWA's database.
